

## HOW THE SHARE MEALS APP WORKS

---

### STEP 1

Students create an account using their university email address

They can only interact with other students in their university

### STEP 2A

To share meal swipes, users enter details (time, location) and a short note in **15** seconds

To post events with free food, users enter details (time, location, allergy information, photos) in **30** seconds

### STEP 2B

To find meal swipes, users open a real time map and click on nearby offers to open a chat in **15** seconds

To find events with free food, users open a real time map and click on nearby events to decide if they want to attend in **15** seconds

## FREQUENT QUESTIONS

---

*What does it cost to bring the Share Meals app to my campus?*

The Share Meals app is free for students to use, regardless of the university they attend. Share Meals also provides data collection, analysis, and consulting premium services to universities.

*How long does it take to bring the Share Meals app to my campus?*

Students can start using the Share Meals app immediately. Like, right now! However, their experience is better after a campus is set up in our databases. This process takes **10** minutes.
